1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5-7, 9-11, 13, and 14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yamada et al. Yamada et al disclose a personal watercraft 10 with a main lid 26 and a secondary service opening with lid 166. The two lids clearly allow the use of both hands of a service worker access.

3. Claims 4, 8, 12, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nanami et al show an air intake cover 138.
